

# Chris Lewis

## 2010-2015

I studied GCSE's at Tudor Grange Academy in Mathematics, English, Science, history, geography, graphics and sport. I then went on to study at the Heart Of Worcester College a Level 3 Extended Diploma in Mechanical Engineering between 2015—2017.

I was employed with Severn Waste Services during 2017-2020 where I successfully completed a Level 5 NVQ apprenticeship in mechanical and electrical engineering. I have since completed a degree in mechanical and electrical engineering through a university based course and am now employed as a Senior Mechanical Engineer at Oracle Environment.
