

Natasha Monteith

2010-2018

I have just graduated from the University of the West of England with a Bsc (Hons) in Criminology with psychology after 3 years of hard work and perserverance. Moving to Bristol and going to university is a decision I am forever grateful to have made, because I have had the most amazing three years during my studies.

I studied A-Levels in mathematics, French and English Literature at Tudor Grange Sixth Form

I am looking forward to the next step and what the future has to hold for me.
