

StiliyanSurlekov

2013—2017

I studied at Tudor Grange Academy from 2013 to 2015, then joined the Tudor Grange Sixth Form till 2017. I studied A-Levels in mathematics, business studies and economics which led to my decision to study a BA Hons in Business Management at Coventry University. I completed 4 years at university including a year of placement at Robert Bosch as a Sales and Project Management Intern.

I graduated in November 2022 with a First-Class degree in Business Management. Once I completed my studies, I began working for Ingersoll Rand a multinational company that provides mission-critical flow creation products and industrial solutions as a Business Development Coordinator.
