## 2012-2019

**I studied BTEC Level 3 in Applied Science, Economics and Business Studies A-Levels at Tudor Grange Sixth Form. After leaving sixth form I went on to pursue an accounting apprenticeship with KPMG. This was the best route for me and a better alternative from going to university. I worked at one of the big 4's doing audit but now I am currently working at a top 10 accounting firm in a management accountant role as well as studying for my professional AAT qualifications which will allow me to progress to chartered level.**
