

George Powell

2014—2020

George left TGAW Sixth Form in summer 2020 with A-Levels in physics, maths and Spanish. George is receiving his Gold DoE award at Buckingham Palace in the photograph which he completed whilst at Sixth Form. With a change of direction from an initial plan to pursue engineering, George focussed on the subject that he really enjoyed and is about to complete the second year of a four year Spanish and International Politics degree at Aberystwyth University.

In September 2022 George heads off to Spain for his third year to teach English in a Spanish school before returning to Aberystwyth University to complete his final year.

George is enjoying his chosen subjects and also life in Aberystwyth. Possible future aspirations include diplomacy work within an embassy.
