

Meghan Walters

2016 - 2023

At Sixth Form I studied Spanish, dance and biology, and now I study Spanish and French at the University of Birmingham. I decided to go to university to get the experience of moving out! And so I can use my languages and become a teacher!

One of the highlights of being at university has been joining the dance society and working on show pieces.

I am looking forward to my future internships and my year abroad in the third year.
