

Noah Smith

2016-2023

I studied A-Levels in history, psychology and a BTEC Level 3 in Sport Science whilst at Sixth Form. The Sixth Form trip to Barcelona during Year 12 sparked my interest in exploring the world beyond Worcester.

After completing my A-Levels, I decided university was not the right path for me at the time. I took a gap year working at Marks and Spencer for over a year. This allowed me to save enough money to pursue my travel dreams. In January 2025, I left Worcester and embarked on a working holiday in Australia. My goal is to explore the entire country, immerse myself in it's diverse cultures and create lasting memories.

My year of hard work in retail after my A-Levels not only provided me with savings, but also valuable employability skills that I'm sure will be beneficial during my travels.
